2D - The cells where anything's possible, english version

Légende

The totipotent cells have the ability to differentiate into any specialized cell. Ideal for repairing tissues or even create from scratch organs! But it remains to reconcile research and ethics ... To discover in 3D by providing it with anaglyph glasses (red and blue). A new episode of the series on board the Nanotilus. Duration: 3 min 01 sec. Coproduction: Universcience, Inserm, Virtual 2012. Version anglaise.
